

PATTON – FULLER COMMUNITY HOSPITAL

Incident Report Form

Patient Name: Dorsey Maves

Employee Name: Darnell Mares, R.N.

Date: April 12, 2010

Time: 03:54

Incident Description: Topril was given instead of Topramax.

Patient Response: The patient had a seizure because he did not receive the topramax.

Clinical Response: Nurse Mares was present during the seizure, there was no harm during the seizure, and topramax was administered late.
